Term 3

Independence:

- Please encourage your child to try and put on coats themselves (and try zips) when at home. We do this in school but the more they get used to doing this the easier they will find it.
- We have been amazed how quickly the children have started coming in by themselves. This term we would like to encourage all children to try walking themselves into the classroom (we will help them get their bags sorted once they are inside).

Things to Remember:

- Please make sure your child brings in a warm coat and possibly hat, scarf and gloves (named). We will still be outside and we do not have enough spare of these.

HAPPY
NEW YEAR

P.E

This will continue to be on a Thursday.

Welcome back to Term 3 and a Happy New Year! We hope you had a lovely break and enjoyed some rest. A big well done for getting through one of the busiest terms of school last term. I know there was lots going on and there were lots of things to remember but the children really did have a great time.

We are looking forward to hearing all about the children's time off and will be using this to complete their 'First Day back books' This is a book that they take with them through the school and then take home at the end of Year 6. Each new term they draw and write (as they are able to) something that they enjoyed doing in the holiday. It is a lovely keepsake and also a great way to see their progression throughout the school. If you have any photos of what they have been up to each holiday then please feel free to add this to their seesaw page as it's a great way to remind them and get them talking about what they have done.

This term:

At the end of last term we talked about the children's ideas for next terms role play area and what they would like to learn about. There was lots of talk about the North Pole (due to the Christmas excitement) and also about snow and ice. To go along with the children's interest we have made an igloo role play area and have lots of ideas to explore this area further. alongside this. The children have also showed a big interest in babies so we will also be learning about growing up and how they have changed since they were a baby.

Fabulous Finale:

Parents are invited to join us on Wednesday 11th February at 2.30pm to see some of our learning from this term (no more than 2 visitors per child please).
