

Important Information about Seesaw

Please read before completing the online consent form

We are trialling the use of a secure online journal where we can share home learning with the children without the need to ask parents to email the work back. This will allow the children to work more independently and enable the teacher to give feedback. Your child will be able to add their learning (including photos, videos, worksheets, drawings and voice recordings) to their Seesaw journal. The way in which we have set up the activities in our school, means that no one will be able to see what your child has uploaded except the teacher and either Miss Wren or Miss Clark.

In order for your child to use Seesaw, the app needs your child's first name so that it can connect work like their photos, videos or voice recordings with their account. Seesaw only uses this information to provide the service. It doesn't allow adverts, create profiles of students, or share or sell your child's personal information or journal content. You can read more about their strong privacy promises here: <https://web.seesaw.me/privacy>.

Under an EU law called the General Data Protection Regulation (GDPR), in order for your child to use Seesaw, the school must get your consent. For more information on GDPR, please visit <https://ec.europa.eu/info/law/law-topic/data-protection/reform/rights-citizens>.

We ask that your child keep the avatar that they have been given and keep their first name only as this is what we have taught them to do to be safe Super Digital Citizens. I hope that your child will enjoy using Seesaw to document and share their learning this year.

With this email we have sent you a link to an online form to sign and in doing so you consent for your child to use Seesaw activities. During this pandemic we would prefer you do digitally agree rather send in paper forms. Thank you
